## THE FIRST COLOR-COATED SPAY/NEUTER SURGERY PACK

**Safer alternative to marking tape | Easily identifiable instruments to reduce mistakes**  
**cost efficient alternative to re-buying/reapplying tape**

Studies have proven that colored marking tape is not only difficult to sterilize but also will peel or flake off of surgical instruments over extended periods of use. This makes them a risky system to use with the threat of trapped bacteria or foreign bodies dropping into a patient's wound during surgery. GerVetUSA has recognized this issue and has spoken with surgeons to brainstorm a safer alternative, bringing forth the first ever Color-Coated Spay and Neuter Pack.

Available sets include: Blue, Rose, Gold, Gunmetal, and Rainbow. All instruments will now be recognizable at a glance without the need to remove and then reapply marking tape. The coating will not peel and sterilization is already included as part of the instruments. Therefore, you will not be required to make any additional purchases for maintenance.

GerVetUSA is a surgical instrument manufacturer, not a distributor. This makes us unique because when surgeons are faced with common problems such as developing a new product or customizing the item to their specific need, we'll get the job done right away. This will allow them to do their job more effectively with ease.

### Adjustable Self-Retaining Balfour Abdominal Retractor

- Adjustable to patients needs
- Self-retaining for convenience
- Cost efficient alternative to buying multiple abdominal retractors

The Balfour Abdominal Retractor is a commonly used instrument in veterinarian surgeries. Due to the wide range of sizes in patients that veterinarians operate on, it is necessary to have this instrument available in multiple sizes as well. This will require surgeons to purchase this item repeatedly, costing them time, money and storage space. GerVetUSA has acknowledged this problem and consulted with surgeons on finding a way to solve it. Rather than selling the various sized items as individual sets, we've come up with the adjustable Self-Retaining Balfour Abdominal Retractor. This set comes with three different sized centers and side blades.

~~Price \$599.99~~

**Sale Price \$399.99**

- Large for a 10" spread
- Medium for a 7" spread
- Small for a 5 1/2" spread

As the title suggests. It is also self-retaining. This means it is unnecessary to have an aid holding the instrument or locking it in to fit the patient. The Self-Retaining Balfour Abdominal Retractor is a more economic development for the convenience of our clients at GerVetUSA.

## Luxating Winged Color Coated Set of 6

GLW-2018-11
